

- How do I get involved on my own?

If you want to join an online workshop, please see above for the link to join.

Otherwise, complete the survey where you can answer the questions we're asking in as much detail as you like!

- I'm part of a group, or I have an advocacy worker - what happens?

Your worker will let you know if they plan to discuss this theme with you either 121 or in your group. Otherwise, you can complete the survey with them, or join one of the national sessions listed above.

- I've already spoken about this theme before in a group

If you feel like you've spoken in your local group about this topic before, don't worry, your worker will pass on this information and it will be used with the rest of our evidence from WC?S members. This ensures that all your work and opinions are valued, no matter when you shared them with us!

- What happens with what I say?

By deciding to contribute, your views will help form our evidence base and will be used to influence the Scottish Government, the Taskforce and other relevant people.
